# A summary of the Lesson

1. Classes were interested in the problem of computer viruses. The students talked about their problems with viruses. Since we learned how they can prevent them.
2. However, the topic that interested them most was a problem with typing banking passwords. Certainly after our lesson to remember when they should not be entered.
3. They are focus one's attention on sth administration of their data on the Internet. We are happy to answer the question on the subject. They learned that the information can later be used eg. To credit scams.
4. They shared their problems with the stalkers told how coped with this problem.
5. They found also a person with such a problem (still) colleagues advised them how to deal with it.
